SOUL-SAVING AT A PROFIT.

Billy Sunday has just received \$10,500 for saving souls at South Bend, Ind. This same amount of money put where it ought to be put into the churches of South Bend would have accomplished far more good, thinks The Independence Reporter. But the people who scream with horror when asked to give a dollar to the local minister—the man who faithfully baptizes the babies, marries the sons and daughters and buries the beloved dead—will become so enamored of Billy Sunday's abuse that they will gladly part with their last cent to fill his already stuffed purse. This is a funny old world and among its other anomalies is the traveling evangelist who gets the coin.—Kansas City Journal.

Judge Dickinson

Mayor H. F. Avery, of Colorado Springs, spent several weeks in Washington this spring, and says, "It was a great pleasure to me to observe the strength and influence of your Congressman and my old friend, C. C. Dickinson—or as he is known to all his conferees in Congress 'Judge' Dickinson. He has the perfect confidence of Speaker Clark, House Leader Underwood and others who are at the helm in shaping legislation and who recognize his judicial temperament and rely largely on his calm and well-weighted judgment. Judge Dickinson is not a noisy member, but is a quiet, forceful worker, always in his seat when Congress is in session and working hard in his office at other times. I took occasion to caution him against overwork for I saw the signs he was under and how he was showing himself very reticent in his speech in Senate every day."—The

responsibilities which have fallen upon him. I felt proud of the friendship of such a man, and proud that the Sixth district, my old home, is so splendidly represented in the councils of the Nation."—Henry Co. Democrat.

Major Joseph Fink, marshal of the supreme court, is one of the very best story tellers in Jefferson City and as perfect a gentleman as one will meet in a long time. No man living enjoys the proper kind of sport better than Major Fink. He is a fisherman among fishermen and a hunter among hunters. Major Fink has a most happy way of getting along with the people whom he meets when out in the woods. No matter how grouchy a native may be, Major Fink will soon have him in a good humor and emptying himself of all the information he possesses about the place to look for game and where the best fishing may be had. This is an acquirement not easily obtained. One must study human nature closely. And this is just what Major Fink has done to perfection. He fits himself to circumstances. If he can do no better than bacon and black coffee he does not complain. To the contrary, he will discover some way of complimenting the cook. Major Fink was an officer in the Confederate army and passed through a great deal of hard service. But time has dealt kindly with him and he is still an exceedingly active man and few can keep up with him on a hard hunting march.—Capital News.

Reward.

A reward of fifteen dollars will be paid by Plainview Lodge No. 80, C. P. A., Butler, Mo. Ten dollars for the arrest and conviction of thief, and five dollars for the return of one iron wagon wheel, painted a lead color with black stripes, said wheel being about 40 inches in diameter, and stolen from wagon belonging to John Allison, on Rich Hill road, about 1 1/2 miles west of Butler, said theft being committed about June 17th, 1912.
W. C. DILLON,
Pres. of Lodge No. 80, C. P. A.
J. B. BROWN, Sec.

Mayor McFarland Writes

Mayor Clyde N. McFarland who is spending several weeks on his ranch in Texas, has just returned to Plainview, Texas, from a motor car trip through the southwest. He writes as follows:

"Well we arrived here about noon today. We had a 1075 mile trip and are all feeling well and had a good time. We left Roswell yesterday morning about 8 a. m., came via the L. F. D. cattle headquarters to Broncho Plains and stopped all night at Brownfield. We left there this a. m. and went on to Lubbock, then here, about 250 miles from Roswell.

"The grass and crops look fine through Yokum and Terry counties, also good west of Lubbock, but it began to show dry around Abernathy and got more so up this way. We are going to Kness tomorrow noon and on out to the ranch.

"Will tell you all about our trip when we come home, as we are coming home in about 10 days or two weeks. Rather think we will vaccinate and brand calves before we leave. We can make our plans better after we see how everything is running out in Castro county."

Clyde N. McFarland.

Wilson Declared Eligible

Washington, D. C., July 14.—Frank M. Wilson's membership in the Missouri Senate probably will not prevent his appointment as United States District Attorney at Kansas City.

President Wilson's objections to appointing legislators may not apply to Wilson, because likely he will not have more duties to perform in the Legislature. Wilson is a "hold-over" Senator. He has served three years and unless a special session is called, his task is completed.

The Kansas City attorneyship apparently lies between J. W. Sullivan and Wilson. The Senators have submitted the names of these two men to Attorney General McMillan. They also presented the names of L. B. Stark, but Stark does not want the place.

To Enroll Sons and Grandsons of Ex-Confederates

J. R. Ford, Commander of Marmaduke Camp No. 615 U. C. V. is in receipt of General Order No. 4, issued from State headquarters by order of Major General John W. Hall, authorizing the enrolling into U. C. V. camps, the sons and grandsons of veterans.

The order reads in part as follows: "The camps throughout the state will proceed to enroll the sons and grandsons of Confederate soldiers into the camps as full members as per resolution adopted at the National Reunion held at Chattanooga."

The next regular meeting of the Marmaduke camp will be held in this city Saturday afternoon July 19th and Commander Ford requests all sons and grandson of Confederate Veterans to be present.

School Coal Bids

The Supply Committee of the Butler High School District will receive bids for 5000 bushels (more or less) of deep mine screened coal delivered in the bins of the several school houses of the district, same to be weighed on the city scales of Butler, Mo., and at least 1000 bushels to be delivered before September 1st, and the balance at the call of the committee who shall have the right to reject any coal not up to specifications. Bids to be opened August 1st. The committee will reserve the right to reject any and all bids.

F. L. Gench,
W. S. Arnold,
Committee.

This is Vacation Time.

Plan it carefully. Spend your precious days and money to the best advantage. A trip to Colorado will well repay you to the limit of satisfaction. The land of mountains, forests and superb scenery.

Come to Colorado via the MISSOURI PACIFIC. Comfort and economy all the way. Ask the nearest Missourian agent or write to the agent nearest you for a copy of the new booklet on Colorado.

Stumped.

Detroit Free Press.
I can fill a fountain pen without much trouble,
I can sometimes open canned stuff with a key;
I can shave away a three days' growth of stubble
And not have a single gash that folks can see.
But I think that I am doomed to know forever
The embarrassment that I have oft-felt
In the summer time, because I'm sure I'll never
Find a shirt that doesn't crawl above my belt.

Provides Sanitary Milk House

One of the best equipped dairy and stock farms in Bates county is that of John Speer of Adrian. Mr. Speer's round barn, which was one of the first in his section and is regarded as being one of the best barns of this type in the entire state. His latest addition to the farm already noted for its fine improvements is a dairy house. This building is 12 by 20 feet, has a concrete floor and foundation. The outside is lined with white enamel over the shingles and that covered with a heavy galvanized iron roof which is held in place by a system of steel rods and nuts. The building is well lighted and ventilated.

building. Provision has been made

for plenty of sunlight. A concrete walk leads from the dwelling house past the dairy house to the barn yard. This dairy house is built over a well and contains the pump, cream separator and churn—all run by a small gasoline engine. A power washing machine will also be installed. This little building is a great convenience and the little engine is a wonderful labor saver in pumping, churning and separating milk.
Mr. Speer's dairy house is a fine example of modern dairy building and will be a great help to the dairy men of the county.
